It takes care of the social as well as the cultural aspects of life at the institute. The Cultural Cell provides a platform to catch the energetic persona of the students by offering them a stage to exhibit their inward imagination and talents. The team organizes various cultural activities round the year to keep the spirits of the campus at enigmatic heights. It ensures that the memories of each event are permanently etched in the hearts of the students. It requires a lot of effort and planning to organize events on this scale, for which we are glad that DME Cultural Cell has a strong and dedicational team with multitude of skills. SPECTRUM

An online art exhibition for student members of the DME Art Society-Spectrum was scheduled on 6th August, 2021. For this event, entries were invited from the student committee. Fourteen students among the three departments of DME sent their art work. The students participated with great zeal and enthusiasm. They have channelized their energy in a creative way and have expressed their emotions through art. Expressing through paint on paper, they have been able to vent out their bottled-up emotions during the pandemic, where they have not been able to live their college life in a usual way. DME Art Society is proud of its member students, who are creative and expressive. They have set an example regarding how energies and emotions can be directed in creating beautiful art. To put it in the words of poet John Keats, 'A thing of beauty is a joy forever' and the students of DME Art Society have given all of us their art work to be rejoiced forever.
