The DME Cultural Cell believes that a college should have its equal share of fun & frolic along with hectic academic schedules. We attempt to capture the students vibrant persona by offering them a platform to showcase their inner talent, be it musicians, actors, dancers, writers, painters, photographers, and above all, performing art dreamers. Students participate in arts and culture at varying levels of skill and engagement. Some create, while others listen to, watch, teach, critique, or learn a cultural activity, art form, or expression. Some are professional artists, designers, and inventors, while others engage informally in expressive activities or create innovative tools, relationships, or products.

The Cultural Societies of DME have organized various competitions and events to help students channelize their energy creatively during the month of September 2021.
