DME ART SOCIETY

There is a famous saying, "for an artist's eye, every blank space is a canvas." From papers, to woods, to clothes, to empty cans, to walls. WALLS!

With the spirit of art and hands with paint brushes, the members of Art Society, Spectrum, DME, Noida, embraced their joys of painting and created a magic on the campus walls. The project was to paint the gloomy looking canteen area. It had 4 walls, and an open entrance area. The jaw dropping ideas of society members and the leadership of the convenors made this project, a dream come true. The major art comprises of food doodles, done by almost everyone who loved art and not just the society members. The doodles ranging in ample number of varieties of food arts one can imagine. Next comes the eye-catching Centre wall with the most artistic, edgy graffiti, done by the finest of the artists in the society. With the right selection of reds and whites, the earlier gloomy looking canteen area, turned into A Dazzling Hangout Spot. But the members were still left with a few more walls. In heart beat the society decided not to drop the brushes yet and they turned the entrance area into photo booth. One wall with the famous paint dripping art is the "Instagram worthy" spot. Not just students, but the faculty members got their inner models out in front of this wall. And let's not forget the aesthetics of a coffee mug. Now imagine that painted on a wall. The members of art society awakened their creative neurons and there was the most aesthetic looking coffee mug wall. This wall gives off the best café vibe one can imagine. Finally, the wall of names. The wall with the Instagram handles and names of all the creative and brilliant artists behind the masterworks done on wall. Coming from a society member itself, it was the most memorable and enjoyable journey, painting the walls. The project started from 4th April, 2022 and lasted for a week. The hard work of the Art society was well appreciated for its bewitching display, making it a hot-spot for photography and a selfie-point.
