About DME

Delhi Metropolitan Education (DME) was established on 1st August, 2012, under the aegis of Sunshine Educational & Development Society which has been working dedicatedly in the field of education for over 16 years. DME is affiliated to the prestigious Guru Gobind Singh Indraprastha University (GGSIPU), New Delhi and is approved by the Bar Council of India.

DME envisions creating future leaders and nation builders by its endeavours in educating young minds. The institute is committed towards forming and sustaining conditions enabling students to embark on an unparalleled educational journey that is intellectually, socially, and personally transformative and enriching.

The founders of Sunshine Educational & Development Society have been engaged in education over the last 16 years.

The sister concerns of Delhi Metropolitan Education are:

- 1. Mayoor School, Noida**
- 2. Delhi World Public School, Noida Extension**
- 3. Delhi Technical Campus at Greater Noida**

Climate Champions- Localise the Net Zero Agenda

Climate change is a real problem with a palpable sense of damage to the air we breathe, the water we drink, the food we eat, and the shelter we live in. Globally, countries realise the urgency to take proactive measures and build response systems to prevent and minimise the risks posed by climate change.

TED countdown is dedicated to promulgating realistic solutions to net zero emissions and advancing ideas to build a collaborative climate community. It is our privilege to convene TEDxDMENoida as a Countdown event and join this bold global movement to tackle the climate crisis. DME Noida is proud to be a part of this initiative and contribute to educating, inspiring, and generating a deeper understanding of the climate crisis. In this endeavour, TEDxDMENoida aims to provide a platform to all dreamers, thinkers, and doers who have contributed and continue to help us to combat climate change and work towards making our environment a better place to live in.

We bring together creative leaders from various Indian Diasporas, facilitate discourse around climate change, and bring forward their stories to inspire and encourage many. A net-zero future is possible. That's why we're hosting this gathering for politicians, business leaders, policy makers, scientists, indigenous leaders, artists, philanthropists, youth activists and others to organize and work together to make that future a reality.

Date of Event: **14 January 2023**

Venue: NM Auditorium, B-12, Sector 62,
Noida, Uttar Pradesh 201309
